### Passage 2

Baths have long been considered of medical importance to man. In Greece there are the ruins of a water system for baths built over 3,000 years ago. The Romans had warm public baths. In some baths, as many as 3,000 persons could bathe at the same time.

Treating disease by taking baths has been popular for centuries. Modern medical baths first became popular in Europe and by the late 1700s bathing had also become popular in the United States.

For many years frequent bathing was believed to be bad for one's health. Ordinary bathing just to keep clean was avoided, and perfume was often used to cover up body smells!

By the 1700s doctors began to say that soap and water were good for health. They believed that it was good for people to be clean. Slowly, people began to bathe more frequently. During the Victorian Age of the late 19th century, taking a bath on Saturday night became common.

In the United States ordinary bathing was slow to become popular. During the 18th and early 19th centuries, many Americans were known as "The Great Unwashed!" In one American city, for example, a person was only allowed to take a bath every thirty days! That was a law!

Frequency of bathing today is partly a matter of habit. People know that bathing for cleanliness is important to health. Doctors know that dirty bodies increase the chance of diseases. Filling in company application forms can become a boring and repetitive task, yet any carelessness on an applicant's part can draw a negative reaction from readers. Each company or organization usually uses its own specially designed form that, although it generally asks for the same basic information, may vary in detail. Consequently the suggestions below apply mainly to the approach you should take rather than suggest what you should write.

--When visiting future employers, always carry your personal data record with you so that you can readily search for details such as dates, telephone numbers, and other useful information.

--Treat every application form as though it is the first one you are completing. Write carefully and neatly.

--Use words that describe the responsibility and different aspects of each job you have held rather than list only the duties you performed.

--Particularly describe social activities that show your involvement in the community, or activities in which you held a teaching or coaching role.

--Pay particular attention if there is a section on the form that asks you to comment on how your education and past experience have especially prepared you for the position.

--Think this through very carefully before you write so that what you say shows a natural progression from past experience to the job you are applying for. If you can, and if they fit naturally, add a few words to demonstrate how the position fits your overall career plan.

#### **Passage 4**

On Thursday afternoon Mrs. Clarke, dressed for going out, took her handbag with her money and her key in it, pulled the door behind her to lock it and went to the Over 60s Club. She always went there on Thursdays. It was a nice outing for an old woman who lived alone.

At six o'clock she came home, let herself in and at once smelt cigarette smoke. Cigarette smoke in her house? How? How? Had someone got in? She checked the back door and the windows. All were locked or fastened, as usual. There was no sign of forced entry.

Over a cup of tea she wondered whether someone might have a key that fitted her front door--“a master key” perhaps. So she stayed at home the following Thursday. Nothing happened. Was anyone watching her movements? On the Thursday after that she went out at her usual time, dressed as usual, but she didn’t go to the club. Instead she took a short cut home again, letting herself in through her garden and the back door. She settled down to wait.

It was just after four o’clock when the front door bell rang. Mrs. Clarke was making a cup of tea at the time. The bell rang again, and then she heard her letter-box being pushed open. With the kettle of boiling water in her hand, she moved quietly towards the front door. A long piece of wire appeared through the letter-box, and then a hand. The wire turned and caught around the knob(门把) on the door-lock. Mrs. Clarke raised the kettle and poured the water over the hand. There was a shout outside, and the skin seemed to drop off the fingers like a glove. The wire fell to the floor, the hand was pulled back, and Mrs. Clarke heard the sound of running feet.
